

## Slight color variation of the honeycomb cardboard

- Due to the industry global sourcing problem, the raw materials of the honeycomb will be changed. It will not influence the mechanical stability of the va-Q-pal cardboard. The only difference is the slight variation of the color. The “new” honeycomb will be an interim solution for the next three months. We will resume to the “old” honeycomb cardboard in October.

# va-Q-pal new version of Product sheet

- Document change and new version of the product sheet for both va-Q-pal and pal SI are available. Changes are as follows:

## Product sheet va-Q-pal SI V2.0

- New article number – **BC000782**
- Dimension changed due to improvement of the U-profile runner. Reduction of 24 liters to the overall payload capacity.  
New inner dimension: **1252 x 1023 x 1273 mm<sup>3</sup>**

## Product sheet va-Q-pal V2.0

- Similar dimension change to SI.  
New inner dimension: **1252 x 1023 x 1273 mm<sup>3</sup>**
